# HIGH SPEED LID PLACER

## High Speed Lid Placer

The High Speed Lid Placer is for processing up to 120 metal friction type lids per minute. The screw feed separates and continually moves stored lids into position as one is being placed. The basic unit is set up for a single size from 1/2 pint to gallons. The lid placer is adjustable to handle dimension variations of the same size lids. The optional downstacker provides 8' of lid storage.

Since we continuously strive to improve our products, we reserve the right to make changes and modifications without notice.
